50X1-HUM

1. After discussions between the Ministry of Technics and the Ministry for Defense concerning the completion of airfields, the committees concerned declared that under the present circumstances it would be impossible to complete the airfields without equipment from abroad such as bulldozers and similar machines for working on the foundations.
2. To meet this great need machines would have to be withdrawn from civilian use, as it has been impossible to produce these machines in Czechoslovakia up to the present.
